

## REMARKS

The amendments to the application are being made to reflect the national phase status of the application in the cross reference, and to include the Abstract.

Claims have also been amended to correct inadvertent clerical and typographical errors. Furthermore, new claims 88 and 89 are being added in order to incorporate the subject matters deleted from the original claim 87 in the course of removing multiple dependencies.

Claims 10 and 61 have also been amended to incorporate the specific references to the silicone-based surfactants included in the original claim dependencies of these claims.

It is respectfully submitted that all the amendments made herein are to more clearly and succinctly recite the invention and to correct defects in the application. These amendments are fully supported by the application as originally filed, and therefore no new matter has been added by the amendments.

Respectfully submitted,

Dowell & Dowell, P.C.
